Third-party Quote Loader Extension, Moneydance 2022-2027 ONLY.

I am not support staff, just a user.

Quote Loader is a third-party extension that has been reviewed and signed by Infinite Kind (Moneydance).

For Moneydance 2022-2027 only, latest Quote Loader Version 2 build is 330111

UPDATE NOTE:

- Fix issue when using Alpha Vantage as the Source for Exchange Rates where Quote Loader can lock up.
- Parameter Tab, add new API calls per minute of 55, max rate for Alpha Vantage free key.
- ++ denotes Historical Data has been retrieved, that is more than just the last dated price. Alpha Vantage and Market Data HD both previously displayed ++ even when only last dated price was retrieved.
- Under the bonnet change made due to impact of java in 2026 producing warning in console log.
- Fix infrequent lockup/failure when ticker are used to return Market indices. e.g. FT100, DOW from FT.
- Update PDF Quote Loader V2 Extension Moneydance 2022 to 2027 V12.7

As a signed extension Quote Loader can be found under EXTENSIONS – MANAGE EXTENSIONS.

Simply click EXTENSIONS – MANAGE EXTENSIONS – AVAILABLE tab, find Quote Loader and click install or update.

Once installed re-start Moneydance - installation complete.

Quote Loader was developed by Mike Bray and this build updated by Stuart Beesley.

PDF’s and Videos by Derek Kent.

The system provides an end to end solution, obtaining quotes from a choice of sources and entering them into the relevant Currency/Security History window, all from a single window within Moneydance. The system can obtain Security Prices, Exchange Rates, Market Indices, Cryptocurrency Rates and prices for Cryptocurrency Investments. The system provides quotes from many stock exchanges, US, Canada, UK, Europe and Australia to name but a few. The process of obtaining quotes from the selected source is fast and error free.

Download the attached PDF, follow the instructions on how to use Quote Loader.

The PDF also contains links to Quick Start Guide Video, Short and Full Tutorial Videos.

All videos are on YouTube.

The second and third PDF’s relate to Quote Loader Auto Run on Demand.

Please keep this thread to this subject on how to use Quote Loader version 2.

Please try this approach and if you find it useful please take the time to post comments and outline any problems you may find.
